Reuse again! Ladybird's previously published **Teddy Bear Tales** and **Nursery Rhymes** have been bunged together to make this large format Treasury in which, of the nineteen teddy bear stories and rhymes in the first half of this bumper book, only five are not written by Joan Stimson. While it is then, less of the bargain it first appears to be, it adds up to a useful basic collection of nursery rhymes with some rather mundane ursine tales and acceptable verse storying.
