'But if you'd captured it and tamed it would the Mustang Machine really have belonged to you!' Would it really ever belong to anyone?" As soon as Mr. Amos tells Becca of the mysterious bike its potential existence haunts her and its real appearance takes over in the preparations for the annual bike-race contest. A touch of mystery and magic but short, sharp sentences, the perfect read aloud. Adventure, slang, rough-house. It is all packed in. The mustang is a highly successful story at many levels. A must for the library and for eager shoppers of both sexes in the Middle School bookshop.
