A specially written re-telling of the tale of the Skye Terrier so devoted to his master that he watched over his grave for many years after his death. The setting and seasons of the tale are cleverly evoked: the Pentland Hills and the shady Edinburgh streets give the young a real sense of place. The ruggedness of the farming life and the warmth at the centre of the tale never gives way to sentimentality. Seven to eevens will want to find out more about the real events.
