More surreal entertainment from Hazel Townson who here presents us with the incredible Lang family: a dog who chews anything that passes or lies still long enough for teeth to engage; chaotic Kevin who is continually bandaged after one mishap or another; and Angus, whose painting causes it all to happen. He'd only meant to paint the shrieking face of the nagging Mrs Crake, his teacher, but things develop at an unwelcome pace. Peace competitions are all very well, but what Angus wants more than anything is a peaceful life!
