Whether you like stories with a moral, fantasy or magic, you are almost spoiled for choice with these nineteen illustrated tales from a poet and an artist who have left such a marvellous legacy to our children. Some are original Reeves' gems, but some are his retelling of traditional tales like 'The Elves and the Shoemaker'. Ardizzone is my favourite illustrator and, as always, his period portraits enhance the stories. The coloured cover illustrations by Elisa Trimby manages to reflect the atmosphere created by the master's black and white line drawings. A useful teachers' book -- well worth dipping into.
