BfK Rating:

0

The second volume of four stories featuring Chips, his family and friends--- human and animal. The mixture is as before: a highly approachable format comprising an amalgam of strip cartoon, straightforward prose narrative and line drawings, the interaction of which draw the reader in, holding the attention and drawing him or her through to the end. The whole thing resembles a miniature version of the unfailingly popular children's annual and is highly recommended for new solo readers.
