Life for a lady mouse can be hazardous, especially when you're expecting babies any day. Unless, of course, like Drusilla you have a minder - especially when he's a kitten like Martin. Despite inheriting mouse-hunting, moggy instincts, Martin won't eat mouse meat, but keeps Drusilla as a pet. He copes well until Drusilla vanishes and he's sold! A devastatingly witty blend of totally logical kitten behaviour and deliciously comical reasons for it, subtly reminding us of our pet-owning responsibilities. I loved every very funny minute of it.
