When Theobald is discovered with his machine from which he makes the world run - sun to shine, rain to fall, plants to grow - everyone wants to work it for his or her own ends. At first they seem to get all they want, but then things begin to go wrong despite the efforts of the scientists. Only when Theobald is in control again do things return to normal. An enigmatic story with somewhat bizarre illustrations dealing with greed and selfishness and the consequences thereof.

Running Order:

77
