A wonderful picture book that works on many levels - the uncomplicated storyline is lovely for reading aloud. It relates the all to familiar situation of a busy Mum assigning Dad to take the children out. The lively and appropriate text will capture and keep the interest of a recently independent reader, yet adult readers-aloud will appreciate the subtle, wry humour. The illustrations not only exemplify the text but take it a stage further with fascinating details that beg for closer observation. I loved it and so did my Y6s - they raced through to solve the 'mystery' and only then could they use it for an assignment.
