'The author who bridges the gap between Nancy Drew and Stephen King' proclaimed the press release extravagantly. This high-gloss, catch-all production looks adult and comes as part of a matching set designed to hook serial readers. The scam of printing the first two chapters of the next book at the end of this is nothing if not inspired. If it all savours of intensive battery book farming - you've got my drift! The actual contents aren't bad and there's a market out there waiting.
