There's bound to be a fair amount of depression, I suppose, in a novel set amongst the scavenger children on the dumps of London in a future-time. Burgess offers no neat and clean solutions to sweeten what is essentially a grim and tenuously held existence, doomed to degenerate for the main characters, even when they have stumbled upon the potential fortune of a baby kidnapped for a three million pound ransom. Youngsters will be challenged by the emotional demands this will make on them.

Running Order:

74
