Pat Thomson has added this to her lively and rich collections of stories for all ages and a welcome addition it is, too. Not only four-year-olds but any young children would have their imaginations, language, emotions and intellects enlarged, developed and enriched by the range of tales and writers here. Pat Thomson plainly believes that early years are a time for wonder and quality language, and so do the authors she chooses. They put to shame the impoverished and patronising language offered by Kiddy-Books and Kiddy-T.V. Buy it now and use it often.
